### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: None of the prior art references of record, singly or combined, teach or suggest a functional particle formed by a method comprising impregnating an inclusion material in a porous/hollow particle by (1) grafting a polymer onto the particle and (2) shrinking and then expanding the polymer-grafted particle in a solution to fill the pore(s) of the particles with the inclusion material under controlled plasma intensity, vacuum degree, monomer concentration, polymerization temperature and/or polymerization time. The combined processes as taught by the Naoki and Dennison patents would not result in the inclusion material being in the pore(s) of the functional particle as resulted from the process limitations of the claimed invention.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
